OFD-LIP48-

Pneumatic Height Adjustable Base for 24" x 48" Work Surfaces

- Adjusts from 29.2"- 43" (Plus top)
- Steel Frame
- Pneumatic Lift Assist
- Brushed Silver Paint
- Perforated Metal Modesty Panel
- Standard with Locking Casters

OFD-LIP60-

Pneumatic Height Adjustable Base for 24" x 60" Work Surfaces

- Adjusts from 29.2"- 43" (Plus top)
- Steel Frame
- Pneumatic Lift Assist
- Brushed Silver Paint
- Perforated Metal Modesty Panel
- Standard with Locking Casters

Power Beam

Specification Guide

Each end leg comes standard with feet, 2 grommets, and top cap.
Shared legs come standard with feet, 2 grommets, and top cap. (June 2020 the Shared legs will provide 2 way, 3 way and 4 way connections.)

Beam troughs come standard with top cap, 2 power panels with 3 plugs, 2 USB and 1 RJ45 knock out, and each power panel has a 110 plug on the end to plug into power.

Fabric Screens/Brackets sold separate

In single applications, the plug can be routed out the grommet in the end leg, and plugged directly into the wall.

In 2 or more beams in a row, internal power blocks, jumpers, and a base in feed are required to connect to the building power (Building connection REQUIRED by an Electrician), and the power panels are plugged into the power blocks inside the trough channel to power the external power panel.

Example of how to specify Power Beam above Power Beam System with Daisy Chain Power

2 Each End Legs
2 Each Shared Legs
3 Each 48" Beam Troughs
3 Each 48" Fabric Screens with Brackets

To Daisy Chain Power:
1 Each Base In Feed
3 Each Power Blocks
2 Each Jumpers, 48"
